Index to Volume 13

Spring, pp. 1–62; Summer, pp. 63–124; Fall, pp. 125–186; Fall Supplement, pp. 1–56; Winter, pp. 187–264.

SUBJECTS

Affinity analysis(es), of responses to questionnaire, 231
African American men, prostate cancer screening of, 213
Age factor(s), in breast cancer knowledge, attitudes, and behaviors, 26
senior citizens' mammography use, strategies to encourage, 108
in underserved women's use of free mammography, 102
Alternative medicine, information about, strategy for, 31
American Association for Cancer Education, business of (presidential report), 63
making a difference (presidential address), 6
membership participation and growth of, factors relating to (special report), 127
proposed section reorganization of (editorial), 125
31st annual meeting of (editorial), 1
32nd annual meeting of (editorial), 63
32nd annual meeting of (editorial), 125
32nd annual meeting of, abstracts (Fall issue supplement), 13–52
32nd annual meeting of, program, 179
32nd annual meeting of, program (Fall issue supplement), 1–11
American Cancer Society, mammography screening guidelines of, 145
Anxiety, death-related, of students, 52
Arts in medicine (reflections), 255
Attitude(s), of nurses toward cancer prevention/screening, improvement strategy for, 76
of students, toward death and dying, 52
toward breast cancer preventive measures, age and, 26
toward caring for dying patients, 52
toward pain management, of radiotherapy residents, 65
Autologous bone marrow transplantation, informed consent for, 71

Bakemeier, Richard F., 188
Barrier(s), to early detection of breast cancer in inner-city clinic attendees, 96
to treatment, racial/ethnic status and, 43
Behavior(s), in breast-cancer prevention, age-related, 26
Berry, Daisilee H. (in memoriam), 64
Bone marrow transplantation, autologous, informed consent for, 71
Book reviews, 256; 257
Boy Scout(s), urban, dietary achievement badge for, 162
Breast cancer, knowledge of, age-related differences in, 26
Breast cancer health message(s), language differences in interpretation of, 226
Breast cancer screening, media choice in preconsultation promotion of, 152
rural Latino women seeking, 231
Breast examination, training of residents for, 20
Burnout, professional (reflections), 58

Cancer(s), *see also* specific cancers
Cancer awareness, of Polish public, 49
Cancer pain, *see* Pain
Cancer prevention, *see* Prevention
Caregiver(s), family, education program for, 116
Cervical cancer screening, rural Latino women seeking, 231
Chemotherapy, patient self-care program for, 248
Child(ren), school-based program to promote balanced diets for, 169
urban, Boy Scout dietary achievement badge for, 162
Client-navigator intervention, 213
Clinical breast examination, *see* Breast examination
Communication, race/ethnicity and, 43
about unconventional therapies, 31
Communication skills, cancer organization multiprofessional workshops for training in, 203
Computer-assisted teaching, evaluation of, 197
Course module(s), multimedia, evaluation of, 197
Cultural factor(s), in mammography use by inner-city women, 96
Curriculum(a), oral cancer, in medical schools, 90
Curriculum development, topic selection for relevance to general practice, 137
Cytology, exfoliative, in oral cancer detection, 85

Death education course, student attitude improvement by, 52
Dental education, exfoliative cytology in, 85
self-study vs didactic approach in, 141
Dentistry, exfoliative cytology in private practice, 85
Dietary intervention(s), for children, Boy Scout–based, 162
for children, school-based, 169
Dying patient(s), caring for, physicians' training needs for, 242
caring for, students' attitudes towards, 52

Education, *see also* Patient education; Training
for general practice, topic selection for, 137
Internet-based, evaluation of, 197
for terminal care, 52
undergraduate, topic selection in, 137
Edwards Achievement Medal, 1997 award, 4
1998 award, 188
Emotional change(s), of patients in informed consent process, 71
End-of-life care, course in, 52
physicians' training needs for, 242
Ethnicity, and barriers to treatment, 43
and information sources, 43
of smoking-cessation program enrollees, 220
Exfoliative cytology, in oral cancer detection, 85

Family caregiver(s), education program for, 116

Gender, of smoking-cessation program enrollees, 220
General practice, relevance of topics covered in undergraduate education, 137
General practice trainee(s), oncology education of in Sweden, 14
Greek physician(s), cancer pain management knowledge of, 39

Health promotion, client-navigator intervention for, 213
multimedia in, 207
peer-educator intervention for, 213
Horton, John, 4

Information preference(s), of patients in informed consent process, 71
Information source(s), race/ethnicity and, 43
Informational strategy(ies), for unconventional therapies, 31
Informed consent, patients' information preferences, reading ability, and emotional changes related to, 71
Inner-city clinic(s), women in, mammography use by, 96
Interdisciplinary workshop(s), for communication skills training, 203

International conference(s), on tobacco use, 253
Internet-based teaching, evaluation of, 197

Journal of Cancer Education, evolution of (editorial), 187

Knowledge, of breast cancer, age differences in, 26
of cancer pain management, among Greek physicians, 39
of cancer pain management, of radiotherapy residents, 65
of Polish population about cancer, 49

Language difference(s), in breast cancer health message interpretation, 226
Latino women, rural, seeking cancer-detection examinations, 231
Lemon, Henry Martin (in memoriam), 2

Mammography, free, underserved women who did and did not use, 102
utilization of, age-related differences in, 26
utilization of, by inner-city clinic attendees, 96
utilization of, by senior citizens, strategies to encourage, 108
Mammography screening guideline(s), controversy about, effect on practice, 145
Media, choice of for preconsultation education promoting breast cancer screening, 152
Medical school(s), oral cancer curricula in, 90
Melanoma(s), malignant, Swedish use of multimedia prevention program for, 207
Multimedia course module(s), evaluation of, 197
Multimedia program(s), for malignant melanoma prevention, Swedish acceptance of, 207

National Cancer Institute, mammography screening guidelines of, 145
Nurse(s), attitudes of toward cancer prevention/screening, improvement strategy for, 76

Oncologist(s), thoughts from an (reflections), 58
Oncology, teaching of, to general practice trainees in Sweden, 14
Oral cancer(s), exfoliative cytology in detection of, 85
Oral cancer curriculum(a), in medical schools, 90
Oral cancer education, self-study vs didactic approach in, 141

Pain, management of, Greek physicians' knowledge of, 39
management of, radiotherapy residents' knowledge of, 65
Patient(s), dying, caring for, students' attitudes towards, 52
in informed consent process, 71
symptom-management program for, 248
Patient education, community-directed, to enhance senior women's mammography use, 108
preconsultation, promoting breast cancer screening, 152
race/ethnicity factors in, 43
Peer-educator intervention, 213
Physician(s), in end-of-life care, role of, 242
Physician–patient communication, race/ethnicity factors in, 43
workshops for, 203
Poland, cancer awareness changes in, 49
Practice, mammography screening guideline controversy effect on, 145
Practice attitude(s), of nurses, improvement strategy for, 76
PRECEDE, 96
Preconsultation education, breast cancer screening promotion by, 152
Prevention, nurses' attitudes toward, improvement strategy for, 76
Primary care physician trainee(s), oncology education of in Sweden, 14
Pro-Self Program, 248
Prostate cancer screening, of African American men, 213
Public awareness, of cancer in Poland, 49
Public utilization, of multimedia melanoma prevention program in Sweden, 207

Race, minority, and barriers to treatment, 43
minority, and information sources, 43
of smoking-cessation program enrollees, 220
Race/ethnicity, and mammography use by inner-city women, 96
and treatment barriers, 43
Radiotherapy resident(s), pain management knowledge and attitudes of, 65
Reading ability(ies), of patients in informed consent process, 71
Recruitment, of African Americans for prostate cancer screening, 213
of children, to promote balanced diets, Boy Scout-based, 162
of children, to promote balanced diets, school-based, 169
preconsultation education for, 152
to school-based adult smoking cessation program, 220
of senior women for mammography, 108
Reflection, teaching portfolio as basis for (methods), 194
Resident(s), breast examination performances of, 20
Rural Latino women, seeking cancer-detection examinations, 231

Scholarship, teaching portfolio as evidence of (methods), 191
School-based program(s), for adult smoking cessation, 220
to promote children's dietary balance, 169
Schweitzer, Albert, 6
Screening, for breast cancer, rural Latino women seeking, 231
for cervical cancer, rural Latino women seeking, 231
mammography, free, underserved women who did and did not use, 102
media choice in preconsultation promotion of, 152
nurses' attitudes toward, improvement strategy for, 76
for prostate cancer in African American men, 213
Screening practice(s), mammography guideline controversy effect on, 145
Self-care intervention(s), for patients, 248
Self-study, vs didactic approach, 141
Senior citizens' housing, mammography use enhancement in, 108
Smoking, transatlantic conference on, 253
Smoking-cessation program(s), school-based, 220
Spanish language, in breast cancer health message interpretation, 226
Sun-exposure behavior(s), multimedia program to improve, 207
Sweden, multimedia melanoma prevention program use in, 207
teaching of oncology to general practice trainees in, 14
Symptom-management program(s), for patients, 248

Teaching, of oncology, to general practice trainees in Sweden, 14
Teaching method(s), for oral cancer education, comparison of, 141
Teaching portfolio(s), to document achievements (methods), 191
for reflection and improvement (methods), 194
Terminal care, course in, 52
physicians' training needs for, 242
Terminology, interpretation of, language differences in, 226
Therapy(ies), unconventional, informational strategy for, 31
Tobacco use, transatlantic conference on, 253
Training, in breast examination skills, 20
Training method(s), for oral cancer education, comparison of, 141
Training need(s), of physicians for end-of-life care, 242
Transatlantic Conference on Tobacco, 253
Treatment barrier(s), race/ethnicity and, 43

Unconventional therapy(ies), informing patients and professionals about, 31
Undergraduate education, topic selection in, 137
Underserved women, who did and did not use free mammography, 102
Utilization, of mammography, age-related differences in, 26
of mammography, by inner-city clinic attendees, 96
of mammography, by senior citizens, strategies to encourage, 108
of unconventional therapies, 31

Voucher program(s), for mammography screening, 102

Women, disadvantaged, age-related mammography use differences in, 26
Latino, rural, seeking cancer-detection examinations, 231
underserved, who did and did not use free mammography, 102
World Wide Web, education via, evaluation of, 197
